2. Since the advent of the submission of this general, all-encompassing requirement, numerous requirements originating from the Resources Division, ORR of the same type, but specifying the industrial installations or areas to be photo-analysed have been answered by the Industrial Branch, PID (NPIC). In a recent telecom with  it was agreed that by-and-large this referenced requirement has been answered through responses to these subsequent requirements. As new  Missions become available future requirements requesting a photo-analysis of the Chicom industrial activity will be handled in PID as expeditiously as possible.

3. This requirement, therefore, is considered to be complete.
